## ABOUT THIS GROUP OF MINISTRIES

This group of ministries had their start in 1912, in Dayton, Ohio, in a store front operation on Jefferson Street just east of the current convention center. Since then, the Lord has enabled His people to be flexible and meet the needs of the city community as it has changed over the decades.

The heart of these ministries is found in missionary endeavors. That means serving Christ in the city in any capacity where there is a need. There are many people in need of love, compassion, education and assistance whether on foreign soil or in the United States.

It is our desire to see people in a right relationship with the Lord...then and only then can all of their needs truly be met. God has provided many resources to be used to His honor and glory and we want to share them with our city. The greatest resource is Christ. It is from Him all blessings flow.

### Nehemiah University for Adult Education

The Nehemiah University was established to bring various types of education to the adults of the inner city without cost. To minister to a person's total needs, many things need to be supplied. Giving education for the purpose of helping a person become self-sustaining is very important. The Nehemiah University provides education in the form of Total Computer Training from the beginning courses to the advanced.

Teachers are well qualified and work in the computer field everyday. Certificates are given for each course mastered. Classes are all on Saturdays and run for ten weeks four times a year. All are welcome.

The Nehemiah University Bible Institute is open enrollment and covers a systematic course study. Many of your Bible questions will be answered in this class. The basic elements of how to understand the Bible are presented.

### Nehemiah University for Youth Education

There are several programs available for youth. The After School Programs (ASP) provide tutoring, meals, activities and field trips for ages 5 through 15 throughout the week year-round. God's Girls and God's Guys provide special functions on Friday evenings. Saturdays are often filled with special activities of youthful interest, all of which are oriented toward education and personal development.
